RE: Support for the City of Lake Elsinore's Projects

Dear Honorable Congressman Ken Calvert,

On behalf of the City of Lake Elsinore, we request your support for funding for the I-15/State Route 74 (Central Avenue) Interchange Project planned in the City of Lake Elsinore.

This project is essential for the future of our City and will directly benefit residents from Perris, Canyon Lake, Lake Elsinore and other eastern parts of Riverside County. The Interstate 15 State Route 74 Interchange is a significant regional transportation corridor that can no longer meet the demands of our growing region. This project would greatly improve circulation, reduce commuter times, and address critical safety concerns for those traveling in and through our community.

The project is currently in the planning and environmental review phase as the City works toward securing the funding needed to move this project forward as quickly as possible. If awarded funding by the federal government, the City is prepared to work closely with your office to ensure the funding is obligated appropriately within the required time frame.

Any support or assistance that can be provided to get this regionally significant project completed would be greatly appreciated. If you have any additional questions or would like to discuss this further, please contact Nicole Dailey at (951) 674-3124 ext. 314 at ndailey@lake-elsinore.org.

Sincerely,

Jason Simpson
City Manager
