RE: Support for Interstate 215 (I-215)/Keller Road Interchange Project

Dear Secretary Buttigieg:

On behalf of the City of Menifee, I am writing in support of the City of Murrieta's application for funding from the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant, administered by the Department of Transportation.

The City of Murrieta is requesting funding for its Interstate 215 (I-215)/Keller Road Interchange project. The project aims to revitalize the City of Murrieta's infrastructure to improve connectivity and establish the City as a hub for the biomedical, educational and technological industries. The most crucial of the proposed developments are the improvements to transit routes and transportation systems. These include expanding Keller Road from two to four lanes as well as constructing improved curbs, gutters, storm drains and sidewalks. Keller Road's interchange onto the I-215 will feature a dual roundabout design that provides benefits to safety and traffic flow while requiring less in maintenance costs.

This interchange project is essential to Murrieta's planned developments of the surrounding area, which include growth of medical facilities, residential communities, commercial centers, hotels and other amenities. The safer and more efficient route, reduced vehicle-hours and economic stimulus offered by the I-215/Keller Road Interchange project make it qualified to receive RAISE grant funding.

If you have any questions, please feel free to contact Phillip Southard, Public Information and Legislative Affairs Officer, Office of the City Manager at (951) 723-3873 or psouthard@cityofmenifee.us.

Sincerely,

Bill Zimmerman
Mayor

Dear Secretary Buttigieg:

I write in support of the City of Murrieta's funding request of \$23 million from the Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant, administered by the Department of Transportation.

The City of Murrieta is requesting funding for its Interstate 215 (I-215)/Keller Road Interchange project. The project aims to revitalize the City of Murrieta's infrastructure to improve connectivity and establish the City as a hub for the biomedical, educational, and technological industries. The most crucial of the proposed developments are the improvements to transit routes and transportation systems. These include expanding Keller Road from two to four lanes as well as constructing improved curbs, gutters, storm drains, and sidewalks. Keller Road's interchange onto the I-215 will feature a dual roundabout design that provides benefits to safety and traffic flow while requiring fewer maintenance costs.

This interchange project is essential to Murrieta's planned developments of the surrounding area, which include the growth of medical facilities, residential communities, commercial centers, hotels, and other amenities. The safer and more efficient route, reduced vehicle hours, and economic stimulus offered by the I-215/Keller Road Interchange project make it qualified to receive RAISE grant funding.

Thank you for your consideration of this project. If you have any questions, please contact Joe Pradetto at JPradetto@rivco.org.

Sincerely,

A handwritten signature in blue ink, appearing to read "Chuck Washington". The signature is fluid and cursive, with the first name "Chuck" being more prominent than the last name "Washington".
