U.S. CONGRESSMAN

KEN CALVERT

44TH DISTRICT OF CALIFORNIA

"The recent and devastating earthquakes in Haiti and Chile are sobering reminders that a natural disaster can happen at anytime. It is important that your family prepare an emergency plan, decide on designated meeting places, as well as keep several days worth of food, water, medicines and pet food on hand. This pamphlet includes vital information for you and your family should such an event occur."

Create an Emergency Plan

Your family may not be together when disaster strikes, so plan how you will contact one another and review what you will do in different situations.

- Be sure every member of your family knows emergency phone numbers and has a prepaid phone card.
- Telephones may be down so determine where to meet your family if you cannot get in touch during an emergency. You will be better prepared to safely reunite your family and loved ones during an emergency if you think ahead and communicate with each other in advance.
- It may be easier to make a long-distance phone call than to call across town, so an out-of-town contact may be in a better position to communicate among separated family members.
- Inquire about emergency plans at places where your family spends time: work, day care and school.
- Talk to your neighbors about how you can work together in the event of an emergency.
- Include an emergency kit in your vehicle.
- Practice your plan.
