**Subject: Support for the City of Wildomar's Road Rehabilitation Community Project Funding Request**

Dear Congressman Calvert:

I would like to express my support for the City of Wildomar's Road Rehabilitation Project and its request for \$5.75 million in Community Project Funding.

This project represents a strategic investment to address critical roadway needs and restore key segments of Wildomar's transportation network before they fall into severe disrepair. The City maintains approximately 127.3 centerline miles of roadway, representing an infrastructure asset valued at over \$329 million. These roadways serve not only Wildomar residents but also support regional mobility throughout Southwest Riverside County.

Wildomar's most recent pavement assessment identifies an overall Pavement Condition Index (PCI) of 67, indicating that the network is in "fair" condition but at a pivotal point where targeted rehabilitation is necessary to prevent rapid deterioration. Without timely investment, many streets will decline into poor condition, requiring significantly more costly reconstruction.

The proposed project will deliver one-time improvements to priority roadway segments, helping to:

- Prevent further infrastructure degradation
- Avoid substantially higher long-term repair costs
- Improve roadway safety and ride quality
- Enhance regional connectivity and mobility

Pavement management data clearly demonstrates that early rehabilitation is far more cost-effective, with delayed repairs costing up to 5 to 15 times more than timely treatment. This project reflects a fiscally responsible approach to preserving critical infrastructure.

As a growing community and regional connector, Wildomar's roadway conditions have impacts beyond city boundaries. This investment will provide broad regional benefits, including improved traffic flow and enhanced safety for residents, businesses, and emergency responders.

Thank you for your consideration of this request.

Sincerely,

A handwritten signature in black ink that reads "Kelly Seyarto".

**Subject: Support for the City of Wildomar’s Road Rehabilitation Community Project Funding Request**

Dear Congressman Calvert,

I am pleased to express our strong support for the City of Wildomar’s Road Rehabilitation Project and its request for \$5.75 million in Community Project Funding.

This project represents a strategic investment to address critical roadway needs and restore key segments of Wildomar’s transportation network before they fall into severe disrepair. The City maintains approximately 127.3 centerline miles of roadway, representing an infrastructure asset valued at over \$329 million. These roadways serve not only Wildomar residents but also support regional mobility throughout Southwest Riverside County.

Wildomar’s most recent pavement assessment identifies an overall Pavement Condition Index (PCI) of 67, indicating that the network is in “fair” condition but at a pivotal point where targeted rehabilitation is necessary to prevent rapid deterioration. Without timely investment, many streets will decline into poor condition, requiring significantly more costly reconstruction.

The proposed project will deliver focused, one-time improvements to priority roadway segments, helping to:

- Prevent further infrastructure degradation
- Avoid substantially higher long-term repair costs
- Improve roadway safety and ride quality
- Enhance regional connectivity and mobility

Pavement management data clearly demonstrates that early rehabilitation is far more cost-effective, with delayed repairs costing up to 5 to 15 times more than timely treatment. This project reflects a fiscally responsible approach to preserving critical infrastructure through proactive investment.

As a growing community and regional connector, Wildomar’s roadway conditions have impacts beyond city boundaries. This investment will provide broad regional benefits, including improved traffic flow, reduced vehicle wear, and enhanced safety for residents, businesses, and emergency responders.

**Support for the City of Wildomar's Road Rehabilitation Community Project Funding Request**  
**Page 2**

For these reasons, we respectfully urge your support for this Community Project Funding request. This investment will deliver immediate infrastructure improvements while strengthening the long-term sustainability of the region's transportation network.

Thank you for your continued leadership and commitment to supporting critical infrastructure in our communities. Should you have any questions, feel free to contact Philip Southard, Communications and Government Affairs Director, at (951) 723-3873 or [psouthard@cityofmenifee.us](mailto:psouthard@cityofmenifee.us).

Sincerely,

Riverside County Third District Supervisor

## CITY OF MURRIETA

March 20, 2026

The Honorable Ken Calvert  
U.S. Congressman  
2205 Rayburn House Office Building  
Washington, DC 20515

### **Re: Support for the City of Wildomar's Community Project Funding Request for Road Rehabilitation**

Dear Congressman Calvert:

On behalf of the City of Murrieta, I am writing to express our strong support for the City of Wildomar's Road Rehabilitation Project.

This project represents a strategic investment to address critical roadway needs and restore key segments of Wildomar's transportation network before they fall into severe disrepair. The City maintains approximately 127.3 centerline miles of roadway, an infrastructure asset valued at more than \$329 million, serving both local residents and regional travel throughout Southwest Riverside County. The most recent pavement assessment shows an overall Pavement Condition Index of 67, placing the network in "fair" condition but at a turning point where targeted rehabilitation is needed.

Without timely investment, many streets will fall into poor condition, leading to far more expensive reconstruction. This project focuses on one-time improvements to priority segments to prevent further degradation, reduce long-term repair costs, improve roadway safety and ride quality, and strengthen connectivity. Pavement management data shows that early rehabilitation is significantly more cost-effective, with delayed repairs costing five to fifteen times more than timely treatment. Acting now protects public funds while extending the life of existing infrastructure.

As a growing community and regional connector, Wildomar's roadways affect more than just city residents. Improvements will support smoother traffic flow, reduce vehicle wear, and enhance safety for residents, businesses, and emergency responders across the region. For these reasons, we respectfully request your support for this Community Project Funding effort, which will deliver immediate improvements while reinforcing the long-term sustainability of the transportation network.

Thank you for your continued leadership and commitment to strengthening infrastructure across our region.

Sincerely,

Jon Levell,  
Mayor
